

IMIS – CLIMATE RESILIENCE STRATEGY FOR SANITATION

IMIS – CLIMATE RESILIENCE STRATEGY FOR SANITATION

- 1

Assess *vulnerability and resilience*, and prepare *resilience profile* and identify priority *risk areas* for *intervention*
- 2

Develop *action plans* and *integrate resilience* into investment planning process
- 3

Monitoring and Evaluation of *Resilience* Progress

CLIMATE RELATED SHOCKS

INCREASED PRECIPITATION & FLOODING

LANDSLIDES

EXTREME HEAT

WATER SCARCITY & DROUGHT

RISING SEA LEVELS
